

ELKLAN Training

Are you the parent or guardian of a child with a speech, language or communication difficulty?

Do you work within a nursery, school or other environment supporting children with speech, language or communication difficulties?

Would you like to learn how to help the children you support to develop their speech, language or communication skills all day, every day in any situation?

Coordinated Therapy Services offers a range of courses for parents, guardians, nursery and school staff who support a child of any age with a speech, language or communication difficulty. Each ELKLAN course is taught by a qualified Speech and Language Therapist and is fully accredited by the Open College Network; it is your choice whether you would like to gain a qualification whilst learning valuable skills.

Courses are also available for nursery Nurses, Teachers and SENCO's and contain practical ideas and advice about how to develop and implement Speech and Language Therapy programmes within a nursery or school environment.

For more information about the courses we offer please contact Sam Wheeler at samanthajwheeler@aol.com or on 07849 645496.
